PROFILE

Highly motivated Digital Technology and Management student (5th Semester) bridging the gap between business strategy and IT. Offering an ideal combination of outstanding analytical business competence (Grade 1.0 in Business Administration) and hands-on technical skills in AI-integration, data analysis, and full-stack development. Strengthened by practical operational experience from a recent logistics "Praktisches Semester," I excel at turning data-driven insights into optimized business processes.

EDUCATION

B.Sc. Digital Technology Management 10/2023 – Present

OTH Amberg-Weiden | 5th Semester

- **Business & Strategy:** Fundamentals of Business Administration (Grade: 1.0), Business Processes Management (BPMN, Lean Approaches), Marketing & Sales.
- **IT & Technology:** Algorithms and Data Structures (Grade: 2.0), Sensors for Smart Systems (Grade 1.3), Smart Factory (Applied AI), Databases (SQL).

PROJECTS

Everyday OS: AI-Driven Management Platform

React, Tailwind, Gemini API, Firebase

- Engineered and launched a live AI-managed life and financial tracking web application for international students.
- Integrated the Google Gemini API for smart financial data extraction and automated personalized schedule generation.

Manufacturing BI Dashboard & Analytics

Power BI, DAX, ETL Data Modeling

- Developed an end-to-end BI solution for visualizing production metrics and live status data (e.g., OEE tracking).
- Implemented data modeling and advanced dashboard design to provide clear decision support for management.

EXPERIENCE

**Operations & Logistics Assistant
(Praktisches Semester)**

05/2024 – 10/2024

SCA Logistik & Fulfillment GmbH | Reichertshofen

- Actively operated Warehouse Management (WMS) and ERP software for inventory tracking, order processing, and shipment monitoring, ensuring full data integrity.
- Contributed to logistics process improvement initiatives and collaborated cross-functionally to guarantee on-time delivery and adherence to quality standards.

Freelance Digital Consultant & Web Developer

2022 – Present

Self-Employed | Remote

- Driven multi-platform digital growth for B2C clients, achieving 452K+ Instagram followers and securing B2B brand partnerships via data-driven content strategies.
- Conceptualized and launched commercial websites and e-learning platforms using rapid prototyping and modern web development tools.
